As you know, we're trying to register our party in the state of Queensland so we can run in the upcoming state election - which could be just around the corner!

Our application for registration is with the Electoral Commission of Queensland now and they're up to the stage where they go through our list of members and check that you are in fact real people.

The electoral commission is going to send a bunch of our Queensland members a letter with a form to send back to them to confirm you are a member of the Sex Party. Please send it back! If this electoral commission does not get these letters back our application will be rejected, so this is really crucial to our registration!

In return for your help we promise that we will defend your civil liberties and run an awesome state election campaign!

Many thanks!

QLD Sex Party Team.
