A Florida man told authorities his cat was responsible for more than 1,000 images of alleged child pornography found on his home computer, the Martin County Sheriff's Department reports.

Keith Griffin of Jensen Beach is charged with 10 counts of possession of child pornography. He told investigators he was downloading music and his cat jumped on the keyboard after he had left the room. When he returned, he found "strange things" on his computer, according to the sheriff's report.

Griffin, 48, is being held on \$250,000 bond. A neighbor is taking care of the cat — who has not been charged.
